MAGIC 123

Heavy-duty multi-purpose white cleaning paste

TECHNICAL DATA SHEET

MAGIC 123 is a ready-to-use cleaning paste for stubborn and old dirt on many materials. The combination of surfactants and the paste formula helps remove dirt from rough and structured surfaces.

Benefits

Versatile, ready to use and economical in use. Pleasant floral fragrance. Suitable for indoor and outdoor applications.

Applications

Shoe rubber, cleaning and polishing oxidised metals, combustion residues on glass, garden furniture, dirt and residues on tiles, car rims and plastic parts.

Suitable materials

Craquelé ceramic, porcelain and ceramic tiles, marble, travertine, natural stone, granite, concrete, quartz, steel, glass, brass, copper, rubber, linoleum, terracotta, PVC and plastic. Always test the actual material and finish beforehand.

Technical data

Property	Value
Form / colour	Paste / white
Odour	Floral fragrance
pH	6.5 ± 0.5
Packaging	500 g jar; 12 jars per box
Coverage / contact time	No fixed value specified

MAGIC 123

Application

01 Test on an inconspicuous area or an unused piece of material.

02 Choose a white pad, microfibre cloth or sponge to suit the material and dirt. Pick up a small amount of product.

03 Wet the tool and rub until foam forms.

04 Work the paste onto the affected surface.

05 Rinse with water until all residues are removed. Repeat if necessary.

06 Clean tools with water.

Storage and shelf life

Keep the jar tightly closed in a cool, dry place. Shelf life: 24 months in the original unopened packaging under correct storage conditions.

Safety and accidental spills

Use suitable personal protective equipment and follow the current safety data sheet. Absorb spilled product with paper, sawdust or vermiculite and dispose of it in a suitable waste container. This technical data sheet does not replace a safety data sheet.

Source and notes

Stone+ adaptation based on Faber MAGIC 123 TDS EN, revision 0.0 dated 23/04/2026, checked on 13/11/2026. Information is based on Faber research and experience. Always carry out a preliminary test: suitability depends on the material and conditions of use. Faber may update the information. Refer to the latest manufacturer data sheet.
