ENGLISH EDITION

Cleaning

More than just a cleaner. From intensive cleaning to daily maintenance.

FABER 30

• Effective on stubborn greasy dirt.
• Removes shoe marks and rubber residues.
• Deep, intensive action.

DISYCOTT

• For cement residues and cement haze.
• Acid-based cleaner.
• Removes efflorescence and inorganic dirt.

Only for rough finishes.

EPOXY RESIDUE REMOVER

• Removes stubborn epoxy residues and epoxy haze.
• Ready to use.
• Fast action.

NEUGEL

• For daily maintenance.
• Highly economical, nourishing formula.
• Safe for the applied protection.

FABER SOAP

• Ideal cleaner after polishing.
• Increases water repellency.
• Gives polished floors a richer colour.

Stain removal

Not all stains are the same. Choose the right treatment.

NO MAC GEL

• For coffee, wine, drinks, ink, mould and permanent marker.

NO OIL

• For vegetable oil, mineral oil, engine oil and grease stains.

MAR GEL PLUS + OXIDANT

• Targeted treatment of rust stains.

OXIDANT + EXTRACTOR + FABER POULTICE

• For damp stains, smog, tannin and yellowing.
• FABER POULTICE: thickener for a poultice.

Protection

Prevention is better than cure. Impregnation against stains, moisture, acids and scratches.

HIDRO PROTECTOR MM

- Very high performance.
- Water-based formula.
- Certified for food contact.

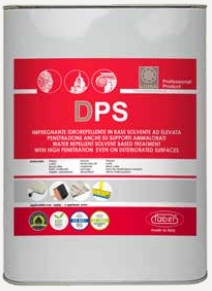

HIDRO SST

- Specifically for treating all 6 sides.
- Water-based formula.
- Certified for food contact.

PROTEX WB

- High performance, deep protection.
- Water-based formula, 100% VOC free.
- Certified for food contact.

DPS

- Innovative solvent-based protection.
- For existing and damaged surfaces (cracks, moisture damage).
- Effective even on low-absorbency stone.

ANTI-ACID

AS 930 CP

- Stain repellent and acid resistant.
- Increases scratch resistance.
- Certified for food contact.

ANTI-ACID

CP 5

- Maintenance product for surfaces treated with AS 930 CP.

Stain-repellent protection

With natural or colour-enhancing effect.

NATURAL EFFECT

HIDRO 150

- Water-based formula.
- UV resistant.
- Long-lasting protection.

NATURAL EFFECT

PROTW LUX · PROTEX

- Fast drying.
- Highly stain repellent.
- Does not change the original appearance.

NATURAL EFFECT

B1/700

- Fast drying.
- Highly stain repellent.
- Does not change the original appearance.

COLOUR-ENHANCING EFFECT

P 147

- No visible film or residue.
- Matt finish.
- Makes maintenance easier.

COLOUR-ENHANCING EFFECT

MA 90

- Solvent-based formula.
- Satin finish.
- Long-lasting effect.

COLOUR-ENHANCING EFFECT

WET LOOK ECO

- Water-based formula.
- Matt finish.
- Highly water and oil repellent.

For even stronger, longer-lasting protection: first apply a water-repellent treatment, followed by a stain-repellent treatment.

Anti-slip treatment

More grip on polished marble, for a safer floor.

SAFE MARBLE

Anti-slip for polished marble in wet conditions.

- Preserves the original appearance.
- Does not form a film or surface coating.
- Requires no special maintenance.

HOW DOES IT WORK?

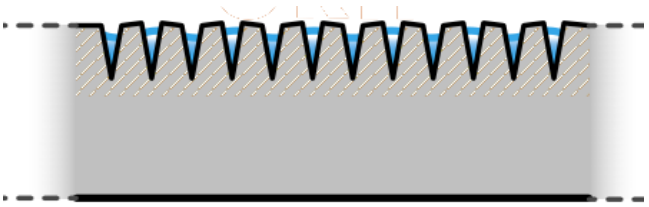

The treatment works by micro-erosion of the surface, increasing grip.

BEFORE

Smooth surface

AFTER

More grip through micro-erosion

Product selection and method depend on the material and its finish. Test beforehand and follow the technical data sheet.

Polishing and maintenance

Take it to the next level with Faber polishing products.

A3 YELLOW

- Glass-like finish.
- High-performance polishing powder.
- Long-lasting result.

UNIVERSAL GLOSSY

- No water needed.
- Ideal for mixed materials.
- Polishes even difficult stones.

FK 2

- Fast crystallising action.
- New formula.
- Ready to use and easy to apply.

ABR 600

- Micro-abrasive polishing cream.
- Repairs damage and wear.
- Soft, matt finish.

HIDRO FAB/AR

- Dirt-repellent protective polish.
- Water-based formula.
- For natural stone and rough stones.

TOP CARE

- Innovative maintenance cream.
- Specifically for worktops and tables.
- Enhances the shine.

Product selection and method depend on the material and its finish. Test beforehand and follow the technical data sheet.
